Some of the computer aera which you can use with csa to make your image more Quality presets for After Effects CS5, CS4, and CS3 I'm not sure when this started but I've been working on these for awhile. These are my first After Effects Presets. I hope you like them. I will update them every week. Free Download-CCRFX_WorkNSFW.zip My mini-project of the month. I have been working on this porting project for a while and decided to release them. This is the first version. I plan on releasing more ports and creating additional presets. These are the first ports. PS: Forget about working on the HD version for now. It will happen. I am working on a new project that will utilize all the new learnings. If you have anything to say to me please do. Thanks. - First, I needed to figure out which version was necessary. After studying the After Effects Help files for both versions of the software I chose CS5. I also chose CS5 because it is my most used video editing software. I was also working on a project that was limited to only 32-bits of color. I thought maybe the 32-bit version of the software would not be as suitable for a project that was going to be generated in Cinema 4D, especially when I was going to be dealing with massive render times that would be caused by the 64-bit version of the software. I'm not sure when this started but I've been working on these for awhile. These are my first After Effects Presets. I hope you like them. I will update them every week.
