How can I modify that?

```
library(tidyverse) df1 %>% dplyr::filter(LENGTH!= 11) %>% dplyr::filter(!grepl("\\.csv$",HEADER)) %>%  
dplyr::select(-LENGTH) %>% gather(key,value,-LENGTH) %>% group_by(key) %>% summarize(sum(value)) %>%  
ungroup() A: Since dplyr's core is lapply and not for, you can keep your script pretty much the same but just add a line that  
limits the number of rows before proceeding. library(tidyverse) df1 %>% dplyr::filter(LENGTH!= 11) %>%  
dplyr::filter(!grepl("\\.csv$",HEADER)) %>% dplyr::select(-LENGTH) %>% gather(key,value,-LENGTH) %>% group_by(
