More than Eleven Years Have Passed and Now We Can Download Soul Calibur 3 Free. (Mar 16, 2020) Soul Calibur is a fantasy-themed fighting game released for the PlayStation 2, PlayStation 3 and Xbox in October 2005. It was the third game in the Soul series, which was a spin-off of Namco's Tekken series. Soul Calibur features a cast of characters from various myths and legends in historical settings. The game is still in development for the upcoming Xbox One X. Despite the series' name, the story of Soul Calibur takes place in modern times. The title refers to the "cross-dressing" nature of the series, which is often exaggerated by its characters. The term "calibur" also refers to the mythical sword named Excalibur, which can only be held by a rightful king of England. The game's settings, including fictional character Voldo's Castle and a land called "Shaolin". The former refers to a deserted island filled with the decaying remains of a castle. With many years of experience in fighting games, Namco seems to have been ready to make a splash with Soul Calibur. Take advantage of the rich history of the game and display it to the world. Prefer
