3.0 APK Game description: The Room 3.0 is a puzzle game where you have to use the power of deductive reasoning to solve the mysteries of your room, your rooms, and beyond. This is not a game for the faint of heart, but it's so much fun. In The Room 3.0, you take on the role of a new guest to an old friend's apartment. He has left behind a mysterious box that hides a secret. You need to find out what's inside that box by figuring out the clues.

You'll need to solve the mysteries of your rooms, your room, and even the exterior of the apartment to piece together the clues and unravel the mystery. Features: * The Room 3.0 is the latest version of The Room, a legendary game that has drawn millions of fans and is one of the top 20 best-selling iPhone games of all time. * The Room 3.0 is not a time-based game. As you solve the puzzles, you can rewind to any point in time, and you can solve the puzzle the same way, over and over again. * The Room 3.0 is part of the new Pantheon series of puzzle games. If you've played The Room, you know the great balance of addictive puzzles, a deep story, and charming characters. The Pantheon games are all about deduction, like The Room. * The Room 3.0 features a brand-new, unseen setting. You'll be exploring a mysterious maze that's part of a super-secret government installation. * The Room 3.0 also includes HD graphics. If you've played the original The Room, you'll be impressed by how much richer and more beautiful the graphics look in The Room 3.0.Q: Who is the "firstborn" mentioned in Matthew 19:1-6?
