AnyDock - A handy, innovative, and absolutely free solution for managing a collection of icons and shortcuts on your Windows desktop. AnyDock

Description: AnyDock is a desktop utility that saves all your shortcuts, program icons and documents on your desktop, into a single document. While you're

---

using any application, this file will remain closed. To view it, choose the 'AnyDock' program icon from your desktop menu bar. Simple and effective, this is the tool for you! AnyDock Features: ★ Interactive : drag and drop, and create your own batch file. ★ Save all your icons, shortcuts, and documents on a single file. ★ Browse your desktop and search for any document with a single click. ★ Preview and remove shortcuts from the desktop in one click. ★ Configure any shortcuts in a single mouse click. ★ The dock is supplied with icons for your common tasks like open web browser, mail client, yahoo messenger, and much more. ★ Supports over 1300 functions in the built-in library. ★ You can download any icons, shortcuts, or documents from the Web and save them to your file. ★ Can create desktop shortcuts for your favorite programs. • Couple of years ago, there was no combination of all three on the market at that time - web development, development and programming. Now it is possible and cheap. In the late 90's, I was developing for Windows and Web and working as a webmaster. Web development tools were about 20 dollars a copy,

---

it was cheaper to develop for Windows than

#### What's New in the Jimpl Wallpaper Changer?

Wallpaper Changer, is a software tool that allows you to change desktop wallpaper at different intervals. The software can let you decide the date, hours and time for the transition, as well as choose the frequency of changes, the day of the week and whether it should be a monthly, weekly or daily interval. You can make your Windows desktop look different by selecting the new wallpaper every morning, noon, or every evening. Wallpaper Changer Features: It allows you to change your desktop wallpaper. You can define the images that should be used as your wallpaper. It allows you to place a picture right on your desktop instead of the default wallpaper. Wallpaper Changer can bring you new wallpapers every day, at given intervals, and even at given times. In addition, you can also change your desktop wallpaper each time you start your computer, or when you log on to Windows, or when you log off, etc. Best Wallpaper Changer can edit

---

your desktop wallpaper from the list, choose your desired wallpaper image, specify the required length and thickness. And finally, it's ready. After the wallpaper is installed, you can select it from the list, specify the required length and thickness, and it's ready to use. Jimpl Wallpaper Changer is most helpful for automatically changing your desktop wallpaper with a new one on a regular interval. For example, once a day, or every afternoon, etc. With its ease of use, you can become a "Wallpaper Changer" yourself. Switch to the best digital video editor with Windows Movie Maker. It lets you add animation, music, and narration to your clips as you edit video with three modes: clip, timeline and storyboard. You can even easily create multi-camera movies by linking clips to camera tracks. Windows Movie Maker description: Windows Movie Maker gives you a complete package of video editing tools. Create professional-quality movies that will wow your family, friends and audience, with just a few clicks of the mouse. Movie Maker lets you cut, trim and edit your video to share on the web or burn to DVD. You can also add transitions to create the smooth

---

special effects you want and you can even add special effects like cross-dissolves. Windows Movie Maker is your full-featured personal video editor for a perfect home video library. Use basic media tools to trim and edit your videos. You can make adjustments like crop
