Random number generator for the Maryland lottery. Generates 5 random numbers and a bonus ball, ranging from 1 to 39. You can choose between '0-6' and '15-75' as the number of picks and top of range. Lottery Picks Screenshots:MLB.com's Carrie Muskat has been covering Major League Baseball since 1981 and is the author of "Banks to Sandberg to Grace: Five Decades of Love and Frustration with the Cubs." You can follow her on Twitter @CarrieMuskat. Here, she blogs about the Cubs. 4/19 Catcher Josh Bard, Anibal Sanchez, etc. The Cubs announced seven transactions on Tuesday, all of which seem to involve pitchers. They're all minor. The club optioned right-handed starter Chris Volstad to Triple-A Iowa and right-hander Scott Baker to Triple-A Albuquerque. Baker was scheduled to start Wednesday against the Reds. Anibal Sanchez was activated from the 15-day DL to start Wednesday against the Phillies and Phil Coke was optioned to Iowa. Cubs pitching coach Chris Bosio believes Sanchez has had a good off-season and is back "at 100 percent." The club also signed catcher Josh Bard to a minor league contract, announced the team's first minor league transactions of the year and optioned three players to Minor League camp. Bard, 23, was a highly touted prospect out of Boston College in 2009. He hit.282 in 126 games and was among Boston's top 20 prospects in the 2010. He was traded to Toronto on July 31 for right-handed pitcher Jason Frasor and outfielder Ronny Paulino, then traded again to the Giants on August 27 for infielder Jeff Salazar. Bard was hitting.345 with six doubles and a home run in 10 games for San Francisco before he was released. He's not far from the Majors. He could be a September call-up. "He's done everything right," Cubs pitching coach Chris Bosio said. "If he can find his old stuff, he'll be in the big leagues." In other transactions, right-handed pitcher Kyle Hendricks was optioned to Iowa. Right-handed pitcher Arodys Vizcaino and right-handed pitcher Jeff Samardzija were sent to Triple

The tool contains an intuitive set of options that can be tackled with ease by all types of users, even those less experienced with such apps. Generate random numbers to enter in the lottery It was designed while keeping the Maryland lottery model in mind, generating five random numbers and a bonus ball, ranging from 1 to 39. The main application window is simple and informs you that the program is for entertainment only and shouldn't be considered a means of discovering patterns for predicting winning lottery numbers. You can generate as many new numbers as you want by continuing to press on the button. However, data cannot be saved to file, printed or copied to the Clipboard to paste it in a text editor. Instead, it's necessary to write down the numbers in a document or on paper. Configure settings to generate random numbers Lottery Picks supports other lotteries too, in addition to the Maryland model, giving you the possibility to configure settings for generating numbers. This includes the number of picks (ranging from 1 to 7) and top of range (ranging from 15 to 75), whether or not to include the bonus ball, and the top of range of the bonus ball (ranging from 2 to 72). The numerical values can be selected from dropdown menus. Evaluation and conclusion The software utility worked well in our tests, without hanging, crashing or prompting errors. It left minimal footprint on system resources, running on a low amount of CPU and RAM. The tool was stable throughout its runtime. To wrap it up, Lottery Picks delivers a simple and fun solution for creating random lottery numbers based on luck. It can be configured with ease.
