You know what?I think we are wasting our time. Is there a software that's just cracking software? I don't mean malware and viruses. I mean simple, basic software that just has the purpose to crack a file (as MS Office does). This is my question: Does anyone know of such software? I'm not searching for those rare programs that can create cracking keys for some software or for a whole bunch of software. But I'm searching for something that can break the code of many simple files. The software should be a simple program that a Windows user can just double click and start the process. Please, don't answer if you haven't heard about it. I don't have any time to search for the software I'm talking about. I'm starting a small discussion. Because I'm 1d6a3396d6
