## TWJCalc Torrent [Mac/Win]

TWJCalc Cracked Accounts is a Java applet that let you calculate the harmonics of a tin whistle and calculates the highest fundamental that can be played for any given hole. For this reason TWJCalc is often used as a preliminary tool for student tin whistle players to quickly check the basic pitch capabilities of their tin whistles, and can also be a useful tool to experiment with any tin whistle that is held in the right position. The Calculator provides a method for expressing the fundamental for each of the holes, allowing you to easily compare the relative characteristics of two tin whistles. Features: - A method for expressing the fundamental of each of the holes (the notes C, C#, D, D#, E, F, F#, G, G#, A and A#) - A method to convert the pressure patterns into frequencies for each of the holes - A method to convert frequency into notes - Several different ways to show the visual effect of the fundamental on a note - Several different ways to show the characteristic of the whistle for each hole - There is a choice of different colors for each hole to easily visualize the harmonic, and also a

---

selection of optional shapes - The TWJCalc application uses large amounts of memory, therefore TWJCalc can be run only on a computer with a high amount of RAM - If the application is not available, or does not function properly, please download the latest version - TWJCalc is distributed as a java application for Windows operating systems only

**Tinnitus warning:** If you have tinnitus or have a whistle that makes a loud noise when blown, TWJCalc may give you an unpleasant experience. TWJCalc uses a real signal that came from a tin whistle, a whistle that makes a loud noise when blown. Karex is a simple, open-source tool to measure the length of a chromatic scale, using the classic 12-tone equal temperament. Karex, for those not familiar, is a tuning method for equal-tempered diatonic scales. The measurements performed with Karex are valid for string instruments tuned to the equal temperament, as well as for those instruments that have been tuned to any other tuning method (such as the chromatic just intonation). For more information about Karex, check out the official website: Karex is distributed under the
