Das Unit Converter Crack Free PC/Windows

Das Unit Converter is a very simple-to-use unit converter that is capable of converting any two or more units and dates of measurement. It is specifically designed to help users who need to convert from a variety of units. It lets you convert units from +ve or -ve numbers and dates of measurement, and you can also convert between all types of units. Some of the conversions are more common and easier than others. For example, it is easier to convert 2kg of weight to pounds than it is to convert 2kg of weight to, for example, kilograms. In addition, Das Unit Converter is so easy to use that it is fairly easy to learn for first time users. Key features include: ¦ Simple to Use ¦ Unit conversion ¦ Many types of units supported (see ¦ Full UNICODE support ¦ Conversion between all date units and between positive and negative values ¦ Any number of units can be converted ¦ Both decimal and fixed point conversion (eg.: 0.1F) ¦ Create units and date combinations for your own preference ¦ Full Customization of how the units and dates are displayed ¦ Unicode support ¦ Magnetic Compass Support This is a Must Have App-Download Now & FREE! Write a Review User Reviews Review Developer's response Dear User, Thank you for taking the time to write a review and tell us what you liked or didn't like about Das Unit Converter. We appreciate your input and are glad to hear you found the application useful. Thanks, - Das Unit Converter User Reviews Reviews for Das Unit Converter 1 By fiona28 A little difficult to use Very helpful for text conversions, but only works as advertised from 13.01.11.10:42:42 Das Unit Converter I like this app... This is the FIRST unit converter I have ever found that can actually make sense. Anyone else try this app.?? Developer's response

What's New in the?

Do you need to know how many Miles per Hour? How do you convert Fahrenheit to Celsius? How many Acres is a Square Mile? Convert weight from Kilo to Pounds or from Meters to Meters? How much is 50 Kilos? How many Yen is 50 Cent? How much is 1 Lira? How do you convert a Kilogram to a GigaPound? How much is 1 PicoWatt to a Molar? How do you know which Vehicle MPG will net you what MPG you want? For heavy duties, how much Blown Fuel can you buy? How much Syrup does a Gallon of Liquid contain? How many Acres is 100 Acre Fields? How many Watts is a Joule? How much Foot Pound is a Pound? How much Teaspoon is a Milliliter? How do you translate a Metre to a Kilometer? Do you know the formula to convert Gallons to Pints? All that and much more is available to you from Das Unit Converter! Download now! Itamax Marketing Solutions – Converter is an easy to use app that enables you to convert almost any source from or to any unit of measurement. On the main frame you have the following options to choose from: 1. Showing the whole list of options This window gives you an overview of all categories and units that are already registered in the program. Simply click on the unit you want to convert from or to in order to get the values of that unit in the other side of the conversion. 2. Single conversion You can convert a single value from one unit of measurement to any other one by clicking on the Convert button on the bottom of the window. Each unit in the Converter will result in the showing of its conversion formula in a window in the middle of the screen. It will enable you to check the

formula in order to properly convert. You may zoom in and out with the scroll bar in order to see and understand the formula better. Double click on the value to which you want to convert to to get the newly converted value. On the right side of the application there is a 3-pane tool bar. The first one is a standard one for most of the Windows applications. You have a menu that can open or close the main window. The second pane is the Conversion window. It has three buttons that allow you to toggle between all available units and the current source and destination units
