September 6, 2019 - Hello Autodesk team, I'm having a problem activating Autodesk AutoCad 2009 LT . Automatic activation does not work. Registration on the site. Activating the computer at program startup does not work. The activator that you send through the site does not work. When using a product key from 2009, activation fails with the error "Authentication failed. Check that the product key is valid." When activating with a product key from 2015, I get the error "Unable to authenticate. An unexpected error occurred while authenticating".
