### Joy RingTone Converter Keygen Full Version Download

----- Joy RingTone Converter is a professional tool to create ringtones for mobile phones. Using Joy RingTone Converter you can convert MP3 and WAV files to any of the supported formats, i.e. WAV, MID, WMA, AMR, 3GP, RM, MPEG, etc. Joy RingTone Converter Free Download (Ringtone Maker) Joy RingTone Converter Free Download (Ringtone Maker) is a Windows software solution that can create mobile phone ringtones using the audio files stored on the local disks. The source file can come in any of the following formats: MP3, WAV, MPEG, WMA, 3GP, RM, AMR, AVI and MPG, while the output ringtone file supports WAV, MMG, AMR, MP3, WMA and MID extensions. Besides the ringtone creator, Joy RingTone Converter also comprises a CD ripper tool to extract audio CD tracks to WAV and MP3 formats. Plus, a dedicated batch ringtone converter enables you to convert multiple MP3 and WAV files to any of the aforementioned output formats with minimum effort. Another important tool that's included in the program is the so-called "MP3 Compressor" that reduces the overall size of an MP3 file to save space on the local disks. Unfortunately however, this particular utility significantly affects audio quality, but this also depends on the configured compression level. The settings menu plays a key role for the output of all aforementioned features, letting you configure each supported format by adjusting multiple parameters. For MP3 for instance you can change quality, channel and bitrate, volume level and VBR. Joy RingTone Converter proved a very stable and reliable tool in most cases, completing the conversion job pretty fast. Plus, it works flawlessly regardless of the Windows versions, running on a moderate amount of resources. All things considered, Joy RingTone Converter is one of the best and most effective ways of creating ringtones. Additionally, it also boasts several other handy tools, all of which are developed to work with your audio files. Joy RingTone Converter Features: -----

- Easy and fast conversion of MP3, WAV and WMA files to ringtone formats
