Serial Number Real Warfare 2 Northern Crusades.rar

the thing is, i am so sick of it here. i have been through this site for years and i really dont see any end in sight. what else can we possibly do, aside from just repeat the same things we have already said and get criticized for repetition? the people who just want to poke a stick at religious folk are certainly not going to care if i answer their same old crap all over again: yes, with no reason, with no proof; that is the other thing i notice, they dont bother to listen to what i have to say, they just expect to be validated with a series of half-baked arguments that they can then use to attack me as well as the religion. it is endless, it is now officially endless. what the hell is the point? the point is we are all dead, we have our own consciousnesses, we are immortal beings; those of us lucky enough to come from a non-religious background are happy that that is so: it means we have no need to be religious, but that doesnt mean we have to tell people they are wasting their time being religious. why shouldnt people have the choice to be religious if that is what they want to do? i think my work speaks for itself, it's the standard practise of my work, and if you like it, support it. and see, thats not the best thing about my work. it takes a lot of time, and it is hard work. i always have to watch the whole film several times to decide which parts are important (which is all frame grabs anyway, its like the only way to judge the film). second thing about it, is that i'm not very good at adapting myself to other people work, my own is a bit too different. so while my practice doesn't follow an exact rule, it follows a series of patterns. it's not like any other person who's gonna force his way into my practice, i have to adopt to it myself; so my problem is, i don't have time for other people. but that's not the only problem, as i think i'm also somewhat untrustworthy and unreliable. i can't be invited to everyones house for everybodys barbecue, because not everybody likes my work.
